## SUMMARY

*As a mathematics lecturer, I believe that every student has the potential to succeed in mathematics. My goal is to create a supportive and inclusive learning environment that encourages students to engage with mathematical concepts and build their problem-solving skills. I strive to use a variety of teaching methods, including lectures, group work, and hands-on activities, to accommodate different learning styles and help students develop a deep understanding of mathematical concepts. I also believe in the importance of providing individualized support and mentorship to students, and I am committed to helping students achieve their academic and career goals.*
